## A Partnership to Plant it Forward

Oscoda County Park and the Oscoda Conservation District are working together to reforest the Park Campground. Many Oak Trees have been lost due to the exotic forest disease known as Oak Wilt.

The trees cannot be replaced with oak due to the likely spread of the disease. Spruce and pine were selected to replace the oaks because they will grow well under the site conditions in the park.

Your donation of a Commemorative Tree will "Plant it Forward" to ensure a green landscape and help protect the Beautiful AuSable River for generations to come.
